4/5S have had their eyes on local government this term, exploring our local council through collaborative work on our wiki. Students have used all sorts of interactive tools to help in

Our Working Together wall shows some of the work we have been completing online.

Right now, our wall shows our Tagxedos that we worked collaboratively to create. They are an image made up of words we think represent our local council.

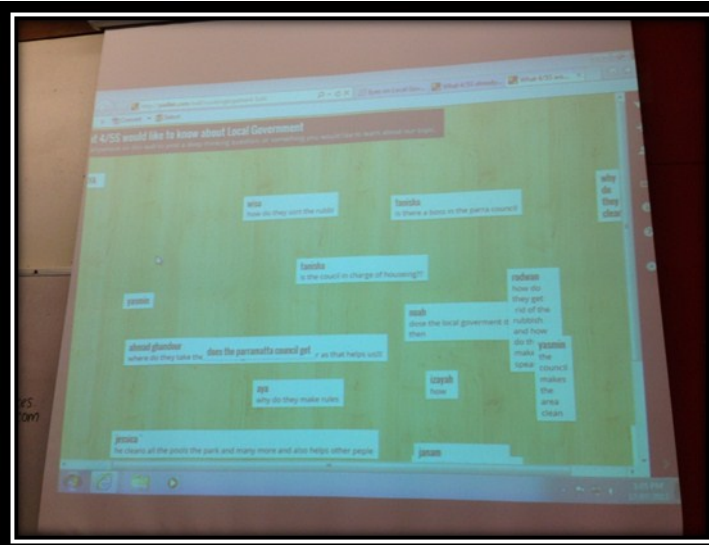

An example of our Tagxedos!

4/5S working collaboratively in the computer lab to answer their own deep thinking inquiry questions. We work with our talking partners to help each other to think critically and creatively.

We work on a padlet so we can answer questions and respond to each other, all while seeing our responses be posted live on the projector!
